Final year Computer Science student at University of Western Sydney majoring in System Programming. I have a strong passion for developing and designing software for the web and strives to create website with seamless user experiences pertaining clean, efficient and scalable code. I am expected to graduate by the end of 2022 and I am looking for an opportunity to work as a Software Engineer.

SKILLS

Programming Languages: C++, Javascript ES6+, TypeScript, HTML5, CSS3

Libraries & Frameworks: Angular2+, Bootstrap, RxJS

Tools: Git, Firebase

PROJECTS

Covid-19 Tracker, Track Covid-19 cases around the world.

Live Demo | Source Code
- Display Covid-19 data of all the countries along with its states.
- Integrated Chart.js to show Covid-19 data from around the world.
- Deployed using Firebase.

TicTacToe
Live Demo | Source Code
- Simple Tic-Tac-Toe with multiple game modes that also tracks player's win score.
- Difficulty level 3 AI is implemented using MiniMax Algorithm, thus making it unbeatable.
- Deployed using Git.

9x9 Hex Board Game
Live Demo | Source Code
- Win Checking is implemented using Backtracking algorithm.
- Deployed using Git.

EDUCATION

Bachelor of Computer Science   **March 2020 – November 2021**
University of Western Sydney, Sydney, Australia
- Major in System Programming

WORK EXPERIENCE

Subway, Sandwich Artist   **February 2020 – Current**
- Open the restaurant by baking breads and cookies, and set the day up for success.
